

Empowered Consumer Boycott (N.A.) Shopping List -
November 2000

The consumer is the bottom line.

Many people feel helpless in the face of global abuse to the environment, humans and animals, much of it done by transnational corporations whose products are difficult to trace. The ECO shopping list is intended to easily provide consumers with information necessary to make choices in the marketplace that reflect their stand on these issues. Detailed information can be found at www.ECOLinks.net.

Read the small print on packages! The following Multinational Corporations have so many products that new ones may not yet be included in the list below:

- **Monsanto, Searle, and Pharmacia & Upjohn** (a new conglomerate), **Unilever /Unipath /DiverseyLever Canada** (cleaning supplies for industry and institutions)/**Loders Crocklaan** (fats for the food and pharmaceutical industries), **Proctor & Gamble, Nestles, Libbys,** and **Kelloggs**. Others companies are included below.

The ECO shopping list is categorized alphabetically by category, and within each category by brand name.
